### Dr.Holt Is Happy To Visit Kuwait

**By Mustafa Albasha**

The consultant of Memorial Hermann Memorial City Medical Center & Director of Memorial International Patient Care Network and International Patient Services & Business Development Abeer Saqer announced about the visit of the medical Team from the hospital to Kuwait with the invitation of the ministry of defense sheikh jabber almuarak alsabah and she said that Our goal behind this visit is to work together with Jaber AlAhmad Armed Forces Hospital pursuing critical and sophisticated surgeries, diagnosing patients, meeting various doctors in many specialties , assist them in critical cases, collaborate and share new techniques and advances in patient care and treatment.,

Collaborating in Improving health services in Kuwait Armed Forces Hospital and make the hospital doctors acquire new skills in surgeries, treatment & diagnostic. Also some of the visiting doctors will be delivering lectures in coordination with the hospital administration and Kuwait university medical college.

Abeer Saqer assured that the medical team leader dr. Holt and the other physicians are happy to visit Kuwait to offer their experience in many techniques and to work together in medical field since Kuwait is advanced in medical fields and the health care in the middle east region.

Abeer Saqer told alwatan that the visit was organized through the military office of Kuwait embassy in Washington and with instructions of colonel abdulrazzak alawadi

### Abeer Saqer: medical team offers new techniques in patient care & treatment

And with coordinating with Lt. nabil aloudan (abroad treatment officer) who visited memorial hospital and doctors to develop the working with Kuwait and coordinate with the chief of administration services office abroad sheikh sabah alabdullah alsabah who worked hard to make this visit successfully happened and his administration to the visit of the medical team with the hospital militant forces and the administrations. The hospital of the memorial Hermann memorial city medical center offers all the medical and health care services to local community and to the world since 1971 since the physicians and staff and administration of the hospital are committed to the high class services in the

Medical and health care and offering it to the citizens in west of Houston city in Texas and for the international patients. With opening 33 floors in the hospital tower for memorial city, the hospital made the commitments of the services in the highest standards and a new advanced service in medical and health care. The medical center of the hospital is combined between the state of art of a hospital and the modernized hotel and commercial center. The citizens and residents and patients from abroad usa have now more than 1,000 physicians and more than 1,600 employee and more than 300 volunteers offering the best medical and health care.
